Dear Mr. Pryke,

Parish of Headley - Parts of Boddleways 4 and 46 Diversions

There have been problems over rights of way on Broxland
Common for some time. My predecessors Colonel Archer-St
and Brigadier Eggar were both concerned that there was a
need to rationalise access in the area & that diversions
and changes were only temporary palliatives, unless
there have been any public inquiries since their time
& about which I don't know, my society must continue
to oppose the applications as they did in 1983 and
the same grounds, that it is quite wrong to obtain
retrospective consent for unauthorised diversions, in
addition - it would seem that local roads had as strong
now as they did then.

Yours sincerely

Frederic Potter.
