Subject: **Re: County Access and Bridleways Officer – Hampshire**

Dear Maureen

I refer to our telephone conversation yesterday morning.

As discussed I have had to take the decision that your continuation as Hampshire County Access and Bridleways officer cannot continue due to the breakdown in relationship between yourself and Hampshire County Council.

As you are aware it is a requirement of all Access and Bridleways Officers:

To maintain good working relationships with the various departments of their local authorities, other user groups and organisations.

It goes without saying that I am extremely grateful for all of the access work you have undertaken for the Society over the years to date, and I look forward to trying to progress with you, in your role as an Access and Bridleways Officer, those outstanding access matters that we have identified previously.

We will now as a matter of urgency be recruiting a County Access and Bridleways Officer for Hampshire. This recruitment will be led by Hannah Marsh and Kayti Harvey in consultation with the Access Department.

If you have any questions or concerns regarding this please do not hesitate to contact me.

With best wishes,

Mark Weston,

Director of Access,
