Dear Mr Roberts,

**Headley Park Rifle & Pistol Club**

Thank you for your letter dated 16th April. I am enclosing a letter from Mr Ted Mason dated 31st March, 1998, who has replied on behalf of Mrs Tett. I also enclose my reply to Mr Mason.

My suggestion for a Creation Order on common land some 50 to 20 feet south of the Cl02 would I think have solved the very serious problem of public safety. It would remove horses from the metalled road and the close proximity of the Rifle Range thus benefiting other road users who may be obstructed by bolting or shying horses frightened by sudden gunfire.

It seems to me that as Mrs Tett has sworn an Affidavit to the possibility of a duty by the Council under Section 130 of the HA 1980 then the High Court will have been misled if that duty is not addressed.

I do not know whether Mr Mason is replying on his own behalf or whether his letter reflects a decision made by the members of your Committee. Either way I would like to know what action the Hampshire County Council will be taking to address this problem of public safety.

Yours sincerely,

Maureen Comber (Mrs)

cc Cllr J. Filer
