Dear Sirs

**Planning Application F34632/007/FUL – Picketts Hill Farm, Headley.**

The applicant is the owner of the manorial waste which adjoins the C102 as it passes the Headley Park Rifle and Pistol Range.

Horseriders have for many years been in danger when riding along this stretch of road, from the loud bangs emanating from the pistol range. The Hampshire County Council is under a duty to help resolve this problem and it would be greatly to everyones advantage to secure a bridlepath along the southern boundary of the manorial waste which is also designated common land, to enable horseriders to access a route off road away from vehicles.

It was with this problem in mind that a claim of 20 year user was lodged with the Hampshire County Council which would join Cradle Lane (U36) to BW4 Broxhead Common to complete the main north south route which is an important link in the National Bridleway network. (Please see Ride U.K. – A Briefing Note) enclosed.

\* (U36)

A dedication from the applicant would not only save time but also considerable cost to the taxpayer by avoiding Council research time, public inquiries etc. etc.

It does not seem unreasonable therefore to ask for this dedication as a developer contribution for I believe the site is being redeveloped from agricultural to domestic or industrial use.

Yours sincerely,

Maureen Comber
