

## More than just a jump filler ...

Training Banners are a simple concept developed by Equitility to become a versatile piece of training equipment and a valuable addition to any arena.

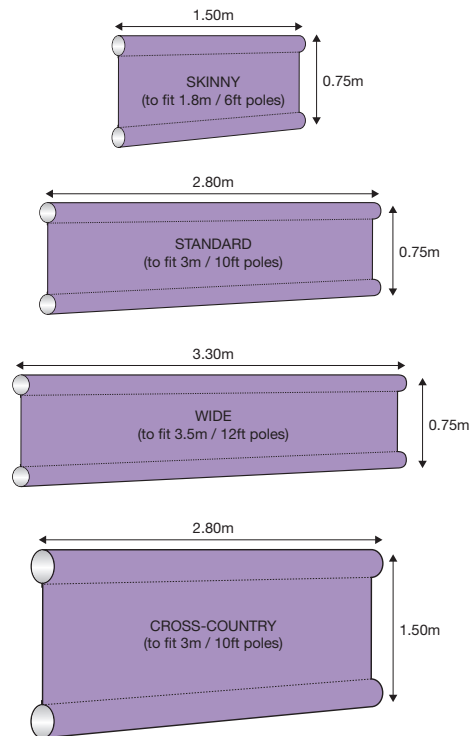

Printed full colour, simply slip a pole into the top and bottom sleeves and hang from standard jump cups.

- Traditional showjump designs
- New x-country style prints
- Step over a surface change
- Simulate a water tray/ditch
- Create narrow spaces
- Desensitise to ring-side banners
- Easy to carry, erect & store
- Instantly revitalise tired poles
- Weather resistant, tear resistant
- Print your own design / logo

When in position, 'off-the-shelf' banners are approx 75cm high (don't forget banners can be rolled round poles to reduce height so you don't have to jump 2ft 6"!)

and come in the following widths:

TRAINING BANNERS

## Standard Range

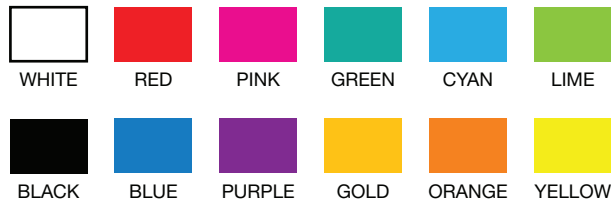

## Personalised Range

Please note that photos need to be of a suitable quality, call or visit [www.equility.com](http://www.equility.com) for full details.

## Standard Plus Range: Colour choices

## ... or let your imagination go with our Custom Range!

We continually add to the ranges with new designs and themes to keep your jumps looking fresh and your horse introduced to new fences and panels, visit [www.equility.com/shop](http://www.equility.com/shop) to keep up-to-date.

*Please note that designs shown here are subject to change.*

*You and your horse should have fun when training and Equility Training Banners can help you do just that!*

Divide the working space into different sized areas to move between, create a narrow corridor to pass through and introduce a surface change to step over. The more you can expose your horse to in the controlled environment of the school the better equipped you will both be when meeting a similar situation elsewhere – that narrow gateway you have to get through while out on a hack, those ring-side banners at shows he always spooks at, that water tray he always backs off at – all can be re-created at home to practice.

Equility Training Banners are single or double sided on Equi-Vinyl, Equi-Mesh or 100% Equi-Recyclable. They are available in four 'off-the-shelf' sizes (details on reverse) and the following ranges:

- **Standard:** traditional show jump or impressive cross-country prints
- **Standard Plus:** Based on our Standard Range but choose your own colour scheme
- **Personalised:** For a stunning and practical gift banners can be personalised with pony/horse and rider name and/or a photograph.
- **Seasonal:** The perfect arena / jump decoration, then simply roll up to store ready for next year! See the full range at [www.equility.com/shop](http://www.equility.com/shop).
- **Custom:** Ideal as promotional jump fillers or publicity at the sides of arenas etc. Banners can be almost any size with your own design. Be creative with the shape eg angled sides, holes cut through - and eyelets can be added.
